About Me

I'm passionate about programming, video games, manga, anime, and cats. I am proactive, responsible, committed, a team player, perseverant, self-taught, and I always strive to give my best in everything, regardless of whether the situation is simple or complex. I hold a degree in Web Development and Digital Applications from Instituto Superior Politécnico Córdoba, and I am currently studying for a Web Development degree at Universidad Nacional de Entre Ríos. I am constantly learning and growing my skills.

Technologies

- HTML5
- CSS3
- JavaScript
- TypeScript
- Tailwind
- Bootstrap
- Angular - React - Astro
- NodeJs - Python
- MySQL
- Git - Github

Languages

English:

Reading: B1

Listening: A2

Work Experience

FullStack Developer Trainee

December 2024 – present

Epidata

Design, produce or maintain (program, adapt and integrate) software components or subsets (classes, modules, screens, routines, subsystems, programs in general) according to specifications (functional and technical) to be integrated into applications.

React, Vue, Java technologies.

Web Developer junior

January 2024 – December 2024

Publissoft

Managed content integration and publication of articles on various CMS platforms such as WordPress, Shopify, Wix, Prestashop, and CPanel. My work includes creating web pages, optimizing content to improve visibility and user experience, and collaborating with cross-functional teams to ensure content aligns with business strategies and objectives. Kept websites updated and relevant by adapting content to evolving needs.

Collaboration

Freelance - Collaboration on Juana Manso Site

Redesign of the Home in WordPress using Elementor, implementing an interactive slider and new sections. Created new content pages and modified the footer by adding a new section. Ensured site responsiveness for a better experience on mobile devices.

[Link](#)

Freelance - Layout Collaboration

Developed an interactive banner in the HubSpot CMS using HTML and CSS. The banner allows the client to change the images and text of each item, and on hover, both the text and the image dynamically change.
